WORK EXPERIENCE

Software Engineer I — July 2023 - May 2024
Frontend Developer Intern — Jan 2023 - July 2023
Climbax Entertainment Pvt. Ltd. — *Gurugram, India*

Project 1: Learning Management System (LMS) — kmskillshare.kmbs.co.in

- Led the development of an **LMS platform** that reduced **training time** by **30%**, improved **learner engagement** by **45%**, and reduced **data entry** and **report generation** by **80%**.
- Managed **architectural frameworks** and streamlined **feature workflows** to enhance **UX** and **functionality**.
- **Technology:** NextJs(13), ReactJs, Javascript, Material Ui, Bootstrap, CSS, HTML

Project 2: POS Admin Panel with KOT — updarshanpark.digicuropos.com

- Conceptualized and developed a dynamic admin panel for POS systems, incorporating **robust analytics**, **detailed reports**, and **efficient management tools** for inventory, orders, users, and products.
- Built **reusable components** to enhance **scalability** and **maintenance efficiency** and designed a **Kanban board** within KOT for **streamlined order management** and **order queue visualization**.
- Crafted a **mobile-friendly** and **intuitive UI**, prioritizing **UX** to ensure **seamless access** and **productivity**.
- Worked in an **Agile environment**, actively participating in sprints, scrum meetings, and collaborative planning sessions to ensure timely and efficient project delivery.
- **Technology:** NextJs(14), ReactJs, Javascript, Typescript, Antd, CSS, HTML, TailwindCSS

Other Projects:

- Took **initiative** and developed a **proof of concept** for a Bluetooth advertising feature within an **iOS app** using **swift** and **swiftUI**.
- Spearheaded the creation and deployment of a **Tizen OS-based TV Signage Application** with a **controlled admin panel to add data**, enhancing internal communication and information dissemination.

Flutter Developer Intern — Dec 2022 - Jan 2023
Bodhi Ai — Jaipur, India

- Redesigned internal management app, enhancing CRM and marketing team efficiency.
- Implemented data filtering, searching, and sorting.
- **Technology:** Flutter, Dart
